# Antitrust Policy

All project meetings are subject to the [Linux Foundation Antitrust Policy](#).

The following topics must not be discussed:

- Price-sensitive information
- Actual or projected changes in production, output, capacity or inventories
- Matters relating to bids, prospective bids, or bid policies
- Matters relating to actual or potential individual suppliers that might influence the business conduct of firms toward such suppliers
- Matters relating to actual or potential customers that might have the effect of influencing the business conduct of firms toward such customers
- Current or projected costs of procurement, development or manufacture of any product
- Market shares for any product or for all products
- Confidential or otherwise sensitive business plans or strategy

If you have questions, please contact [legal@finos.org](mailto:legal@finos.org)

# Meeting Notice

- FINOS Project leads are responsible for observing the FINOS guidelines for running project meetings. Project maintainers can find additional resources in the [FINOS Maintainers Cheatsheet](#).
- All participants in FINOS project meetings are subject to the [LF Antitrust Policy](#), the [FINOS Community Code of Conduct](#) and all other [FINOS policies](#).
- FINOS meetings involve participation by industry competitors, and it is the intention of FINOS and the Linux Foundation to conduct all of its activities in accordance with applicable antitrust and competition laws. It is therefore extremely important that attendees adhere to meeting agendas, and be aware of, and not participate in, any activities that are prohibited under applicable US state, federal or foreign antitrust and competition laws. Please contact [legal@finos.org](mailto:legal@finos.org) with any questions.
- FINOS project meetings may be recorded for use solely by the FINOS team for administration purposes. In very limited instances, and with explicit approval, recordings may be made more widely available.

# Announcements

# Events

Today (25<sup>th</sup> Jan), 5.30pm

LSEG Offices, 10 Paternoster Square,  
London

With expert guest speakers and facilitators at each session, you can expect demos of the latest open source technologies (don't worry, no pitches!); case study presentations on transformational or enabling projects; and interactive sessions exploring agile ways of working and how to foster an open source culture.

Join us at LSEG's office for a fascinating talk on 'AI Software Development Lifecycle on Kubernetes ' by ControlPlane CEO, Andrew Martin.

Followed by the return of our Open Source London panel discussion looking at AI in Open Source with the likes of LSEG, NatWest, Elastic and Fujitsu.

# Events

The only conference dedicated to driving collaboration and innovation in financial services through open source software and standards.

We bring together experts across financial services, technology, and open source to engage our community in stimulating and thought-provoking conversations about how to best (and safely) leverage open source software to solve industry challenges.

Sept 30 & Oct 1

New York Marriott  
Marquis,  
New York City

# Events

6 & 7 February

The Brewery, London

State of Open Con 24 - the UK's open technology conference covering open source software, open hardware, and open data.

James McLeod

Open Source in Finance: Transforming Engineering in Banks whilst building collaboration

7<sup>th</sup> Feb, 3pm

Join FINOS at the CDM Showcase, where industry stakeholders converge to explore the latest advancements in the **Common Domain Model (CDM)**.

Discover the fully open-source CDM version 4.0.0, released in the summer of 2023, and engage in discussions on its applications, including collateral scheduling, legal master agreement mapping, regulatory reporting, and compatibility with different programming languages.

28 February

State Street,  
20 Churchill Place,  
London

## FSI HACKATHON FOR AUTISM

3-4 April 2024  
Hybrid/NYC

[REGISTER»](#)

### Mission Statement:

Bring FSI developers together to demonstrate how innovative Microsoft technologies can transform autism services for profound autism by tackling real world use cases provided by families and creating lasting open-source projects for the community.

#### IN-SESSION CO-PILOT

Multi sensory data capture. Real-time identification of pre-designed triggers. Post-session summarization. And more!

#### CLIENT CO-PILOT

Providing continuous assessment, summarization and re-plan using Generative AI to analyze past records and suggest therapy.

#### CLIENT ON-BOARDING CO-PILOT

Providing automatic background and historical information collection through AI to enable cross session collaboration.

#### FRIENDLY NEIGHBORHOODS

A matching platform for RBT, BCBA, ABA, etc therapists and children.

#### USING HOLOLENS TO ENABLE

Skill based training with adaptive Generative AI to manage, evaluate and feedback.

#### METAVERSE SOCIAL PRACTICE

Offer the Metaverse as an opportunity to practice social interactions in a fully immersive environment with Generative AI.
